

GenPac 64c successor of the IWay HOPPER MTA128ST for high-speed data transfer

Rev. 18/06/2009

With MultiTech Systems technology inside, the **GenPac 64c** is an external terminal adapter used to connect a computer or any communication device with a serial port, to the ISDN network. It provides a RS232 port (Sub-D 9 Female) and an USB 2.0 port Female type B.

Each of its two B-channels provides a bandwidth of 64 Kbit/s and a D-channel of 16 Kbit/s for transfer control. The two B-channels can be used independently or combined, by using the ML-PPP protocol, in order to obtain a bidirectional bandwidth up to 128 Kbits/s which allows the transfer of large files.

Protocols: PPP, ML-PPP, MP+, V.120, X.75, HDLC, CLEAR (asynchronous)
CHAP MD5, PAP and Soft Bond B-channel

The **GenPac 64c** is certified CE, OC, FCC Part 15 and can be installed throughout the world. It is compatible with Windows 2000, XP, Server 2003, Vista, Server 2008 and it is supplied with all its accessories (cables and power supply).

Applications:

- Video Remote Surveillance
- Transfer of large files

2 years WARRANTY

Order code: GenPac 64c S0371
